## Session 2: Outward & Practical

Duration: 120 min

Where: Zoom

**Goal: Define your ideal customer(s) and top 3 offerings**

This session has an outward focus to decode, distil & get very clear on your **ideal customer(s)** and **3 core offerings** we'll start off with.

Here you can bring all your ideas and thoughts to the table and I'll help you **decode, distil** & get very clear on what you love so dearly.

We'll need to have a clear understanding of the core problems your ideal customer experiences. The homework questions should make these clear, but we can always add another powerful exercise to the mix.

We end off by mapping 2 to 3 concrete sales funnels from teaser to offer (incl. cross-selling).

**If need be we'll extend this session to 2 hours, or do 2x sessions of 60-75 min each.**

## Session 3 - Details & Next Steps

In the last session we'll map our [implementation plan](#)! We'll list all goals, intermediate goals (smaller steps), means (what is going to get us there) & action points (what will we do to get there).

Based on the first two sessions, I'll put together an initial plan, and in this last session we'll use the time to tweak, add & enhance this plan.

Here's a short video of how I use the tool:

1. What's your rationale? Why are you doing this and where does it fit into what else you're doing?
2. What does your product do as opposed to what it is?
3. In which ways is your product unique and different, better or worse than what your competitors or alternatives offer?
4. Who are you targeting with this product? Is it your ideal customer? A new customer? How do they vary and in which ways?
5. What is the reaction / emotion / feeling you wish to evoke?
6. What do you want this customer to do? Be as specific as possible here and run through the entire sales funnel from interest to purchase.

## Guiding Questions

1. What is your (ideal) customer experiencing?
  - What's actually happening there?
  - Does your idea embody what's really going on?
  - Are you connecting & sensing into felt pain points?
  - That seem insolvable?
  - To your customer?
2. What will happen if they don't handle the problem?
  - Does your product unpack where they'll end up if they don't handle the problem?
  - What's your tone like?
  - What's the vibe like?
  - Are you sympathetic?

- Judgemental?

3. What do they need to solve their problem?

- Create a top 5.
- Then check.
- Is my product featured?
- If so, you've got yourself an offer.
- If not, ask yourself "what needs tending"?
